

## Course Title: Speed Awareness and Distracted Driving

<b>Target Audience:</b>	The course is designed for drivers of motor vehicles who have been identified as speeding via ROP fine or IVMS; as well as drivers identified as using mobile phones/texting whilst driving.
<b>Languages</b>	English and Arabic.
<b>Aims:</b>	It is well documented that speed and mobile phone usage contributes to a significant percentage of all road collisions. This course aims to provide awareness of the dangers of speeding/distracted driving with a view to altering behavior to avoid future recurrences. The course aims to replace the traditional company (punishment-based) approach to such infractions (fines/discipline) with a more behavioral based approach, based on similar courses in the UK that have successfully run for over 20 years.
<b>Objectives:</b>	Upon successful completion of this course attendees will be aware of: The dangers and reasons for speeding How to drive safely at a speed commensurate to the road traffic conditions and environment and reduce the likelihood of future speeding events by developing a personal speed awareness strategy How use of mobile phones whilst driving is against the law, extremely dangerous and a causal factor in a high number of road collisions How using mobile phones (even hands-free) can dramatically impact the ability to see danger and drive safely
<b>Prerequisite:</b>	Hold a valid Omani Driving license or recognised Driving license.
<b>Assessment</b>	Interactive class discussion and verbal questioning.
<b>Certification:</b>	OTI Certificate
<b>Duration:</b>	4 hours theory
